

UDDHAV DABHADE

Flutter Developer | Cross-Platform Mobile Application Developer

+91 87675 89400 | dabhadeuddhav1@gmail.com | Chhatrapati Sambhaji Nagar, Maharashtra | [Portfolio](#)

PROFESSIONAL SUMMARY

Flutter Developer with 6 months of full-time professional experience and over 1 year of internship experience in Flutter app development. Skilled in independently handling complete Flutter application development, including UI development, REST API integration, state management (GetX, BLoC), Firebase integration, bug fixing, code refactoring, performance optimization, testing, and Play Store deployment. Experienced across CRM, ERP, government-sector, and Learning Management System (LMS) applications.

WORK EXPERIENCE

Flutter Developer | PartzGo Technologies (Full-time)

6 Months

- Independently handled the complete Flutter app development lifecycle, from initial development through production deployment, as a solo developer.
- Integrated REST APIs and optimized application performance for a smoother, more stable user experience.
- Refactored existing codebase and fixed critical production bugs to improve app reliability.
- Managed deployment processes and provided ongoing production support.

Flutter Developer Intern | Baap Company

10-12 Months

- Developed and maintained CRM, ERP, and government-sector Flutter applications, currently live on the Google Play Store.
- Collaborated in a 2-member development team to build UI screens and integrate REST APIs across multiple app modules.
- Implemented state management using GetX and used Git/GitLab for version control and team collaboration.
- Contributed to bug fixing and feature enhancements on live, production-grade applications.

Flutter Developer Intern | eCool.ai Ventures Pvt. Ltd.

3 Months

- Independently developed a Learning Management System (LMS) application end-to-end, from initial development through production release.
- Designed and implemented UI components, integrated REST APIs, and performed application testing.
